Understanding the Humanitarian Ecosystem

Name: Anon Nymous

Diagnostic date: 6 April 2017

TOTAL

Great – you are well on your way to a strong understanding of the humanitarian ecosystem. You still have room for improvement, but there are many targeted resources available to reinforce your understanding. We recommend that you use this report to see which areas you should focus on and review the recommended resources in these domains. Before attempting the certification assessment, retake this diagnostic test.

Your score gives an indication of how you would have scored on the certification assessment. How well you do depends on what you do next!

OVERVIEW

Domain 1: The Big Picture

Domain 2: Key Actors

Domain 3: Key Mechanisms and Processes

Domain 4: The Shaping Environment

Preparing for your certification assessment

The certification assessments are independent and do not require participation in specific training or education programs. The diagnostic test you have just completed gives an indication of how much you need to prepare and in which areas. Refer to the Study Guide at the link below for recommended free resources by area. You will also find a list of relevant courses offered by different training providers. After further study, retake this diagnostic test to check your progress before undertaking the official certification assessment.

Why certification?

Be recognized for your competencies

Demonstrate commitment to your work

Receive a meaningful, verifiable, and transferable credential

Understanding the Humanitarian Ecosystem

Name: Anon Nymous

Diagnostic date: 6 April 2017

DOMAIN 1

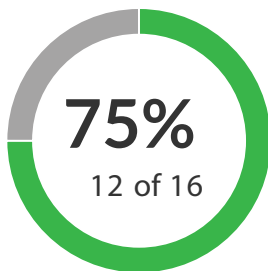

Domain 1: The Big Picture

Great – you are well on your way to understanding the scope and defining characteristics of humanitarian action, but you still have room for improvement. We recommend that you refer to the Study Guide and follow the recommended resources for this domain.

Focus in particular on statements 1.1, 1.3, 1.5, 1.6, 1.7

DOMAIN 2

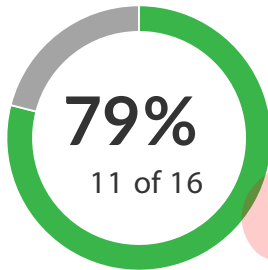

Domain 2: Key Actors

Great – you are well on your way to understanding the key actors in humanitarian action, but you still have room for improvement. We recommend that you refer to the relevant section of the Study Guide for this domain and that you discuss the study questions and scenarios with colleagues.

Focus in particular on statements 2.3, 2.7, 2.8

DOMAIN 3

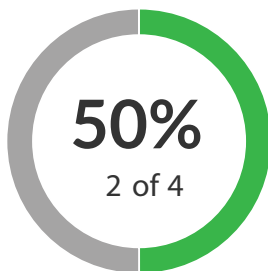

Domain 3: Key Mechanisms and Processes

Great – you are well on your way to understanding the key mechanisms and processes, but you still have room for improvement. We recommend that you refer to the Study Guide for the domain and discuss the study questions and scenarios with colleagues.

Focus in particular on statements 3.2, 3.4, 3.6

DOMAIN 4

Domain 4: The Shaping Environment

Great – you are well on your way to understand current debates and pressures related to humanitarian action, but you still have room for improvement. We recommend that you refer to the Study Guide and that you discuss the study questions and scenarios with colleagues.

Focus in particular on statements 4.1, 4.2

Next steps

To become certified in this area, you must pass an invigilated assessment and commit to a code of ethics and professional conduct. If you wish to prepare further, refer to the Study Guide and specific recommendations in this tailored Diagnostic Report. If you feel that you are ready to proceed to the certification assessment, refer to the Candidate Handbook for further information about the certification process and next steps.
